and thieves from a distance,

The marine white elophant, the Great Eastern, having laid all the ocean cables required, was thought to have permanently retired. A possible permanent use for the stemer has been nuggested in the carrying of live and dead ment from Galveston, Texas. to Liverpool. The charterers of the steamer in England have written to their agents in Galveston inquiring if 80,000 head of cattle could be supplied to them at that port each year; the intention being for the ship to make four trips each year, carrying 20,000 head each trip. The Texas papers are enthusiastic over the prospect of having the huge ship lying at their wharves. The only doubt is whether the ship's great draught will not prevent her entering the port of Galveston. It would certainly be a grand thing for Texas if the scheme should carry. A port which could supply 80,000 head of cattle a year for foreign shipment would attract a great deal of attention in Europe among those anticipating emigration, and the indirect gain of a strong immigration would be another benefit Texas could count

### A BULL-Y STORY.

The Democratic papers are pretending to be in high glee over the presumed easy victory they are going to get this Pall. In fact they talk as if their airy candidate was already scated in the White House. This talk and the inevitable result reminds us of a little story, as Abe Lincoln used to say: One day an Irishman was walking along the highway, when he spied a bull in a neighboring field. The bull seemed to be in particular good spirits and was singing a base solo as he threw clouds of dust over him. Pat saw an opportunity to have a little sport, and so tickled was laughed until his sides ached over it. Then he jumped the fence and approached the beast for the frolic. The sylvania, Ohio and Indiana. bull was fully as eager for the fun to commence, and pretty soon it became ing at every bone and unable to ruse Pat thus soliloquized: "Faix, I'm glad I laughed before the fun comminced for I have'nt the heart in me now to do it. at all. By me sowl, I haven't." The moral of this little story will be shown laugh now.

### HOW GEN HANCOUR LOOKS,

The first thought as you look at the general is that he must be Barnum's fat boy grown old. His face is gross and sensual. His cheeks puff ont like the Attorney General Deveus states that fat boy's, and then his whole head grows the Marshals who have, will do their row. The general is a great eater and a meal and whiskey whenever he feels like it. High living and liberal drinking have given him a flabby, sensual double chin which hangs down and rests over his amashed down shirt-collar. The general is fifty-nine years old. He wears a white military mustache, and weighs about 250. He is not a good talker, and never succeeded in making the simplest semi-public speech. He is lazy, phlegmatic, and does nothing but eat, drink and enjoy himself sensually. He never reads books. If he were not a major general he would be a country landlord, who sits around and lets bis wife do the cooking while his son attends to the bar. If elected President, he will do nothing himself. He will simply be a lump of dough in the hands of the rebel brigadiers from the solid South. The sixteen Southern States hate Hancock as they do the old flag, but they have taken him up as a sweet bait with which to catch the Northern Democrats and the soldiers' vote.

The Times says: Some of the more sanguine members of the Democratic party have gone so far as to arrange that when Hancock is inaugurated, Tilden shall ride to the Capitol with him as the outgoing President de jure. This is not a joke. It is gravely proposed by Demcoratio papers that have persistently will most surely quicken the bleed whether tadeclared that Tilden is the real President of the United States, and that more certain, relieve pain, whether chronic Hayes is a usurper.

the Chicago Convention:

Repub tean rute has restored upon a solid basis payment in coin for all the national obligations, and has given us a curn my atsolutely goes and legal, and equal in every part of our extended co-matter. It has lifted the credit of the matter from the point where six per cent, bunds sold at \$6, to that where six per cent, bunds sold at \$6, to that where four per cent, bunds sold at \$6, to that where four per cent, bunds sold at \$6, to that where four per cent, bunds sold at \$6, to that where four per cent, bunds are say rive sought at a fremium. Under its administration raisw ys 3 ave in.er and from \$1,000 to first junt on the same time, and our exports which were \$20,000 of the same time, and our exports which were \$20,000 600 less than our imports in 1879. Without resuring to loans, it has, since the sar closed, defrayed the ordinary expenses of Government, bendes the accurating for rest on the public do it and disbursed annually more than \$40,000,000 for sudders' pension. It has yeld \$200,000 for the public dots, and by retunding the ba ance at lower retes has reduced the annual interest charge from nearly \$.01,000,00 to less than \$89 0.00,000. All the industries of the country have revived; tabor is in damind; wage a lave increased, and throughout the entire country there is evidence of a coming ye sperity greater than we have ever expected 1 pon this record the ken ublican p-rty as a for the principle and purposes which will continue to guide and inspire its efforts:

First—MC MEPUBLICAN POLICY.

First—MC affirm that the work of the last twenty one years has been such as to commend fruct to the faver of the nation, and that the finuts of the costry victories which we have achieved through immune difficulties should be preserved. That the per ce regimes should be preserved. That the discevered Union, now I apply restored, should be perpetuated, and that the literated acture to this generation should be transmitted undiminished to forure generations. That the order established and the credit a quired should never be implied. That the pensions promised should be paid. That the debt so muce is requested the continuous facilities of the continuous facilities of the continuous facilities and that the commerce already so great should be steadily encouraged.

A MAZION, NOT A CONFED RACE. THE MEPUBLICAN POLICY.

A NATION, NOT A CONFED BACY. A NATION, NOT A CONFIDENCE.

Second—The Constitution of the United States is the supreme law, and not a nore contract. Out of the confidence of the state is the confidence of the confidence of

Third—The work of popular equeation is one let to the care of the several blaces but it is the duty of the National coveringent to and that week to the extent of its constitutions, ability. The intelligence of the nation is but to engage gate of the intelligence in the several black, and the destiny of the into must be guided, not by the genus of any one rease, but by the average genus of all or the properties.

PROPOSED CONSTITUTIONAL AMENDMENT.

PROPOSED CONSTITUTIONAL AMPNIMENT.
Fourth—The Constitution wheely forbide Congress to make any law respecting an establishment of rafigion, but it is die to hope that the pation can be protected sgainst the influence of activitianism, while each blate is exposed to its particular domination. We therefore recommend that the Constitution be so amended as to lay some prohibitions upon the legislature of each brate, and to forbid the appropriation of the public funds to the support of sectarian schools.

DUTTES OF THE DAY.

DUTTER OF THE DAY. Fifth—We reaffirm the belief avowed in 1878, that the duties evied for the jurpose of revenues should so discriminate as to favor American labor. That no fur their grant of the public domain shuffd be made to any rails ad or other corporation. That stavery having perished in the sates, its twin barbarity, polynamy, must die in the Territories. ARRADOMMENT OF THE DEMOCRACY.

Sight—We charge up n the Democratic party the incitions sacrifice of patrotion and instice to a supreme and unsatisable has for office and patronage, that to obtain p secsion of the National and lister governments, and the outer of place and position, they have obstructed all the efforts to practice the purity and conceive the freedom of suffrage; have desired fraudulent certificates and returns; have labored to unseat lawinity sected members of Oungress, to secure at all basards the vote of the majority of the States in the House of Representative; have endeavored to occupy by forbe and trond places of trust given to others by the people of Maine, and record to the particular to others by the people of Maine, and record to the principle s and sought the favor of rebellion against the nation; an have endeavored to oblicing the mained individuals, and visideated the principle s and sought the favor of rebellion against the nation; an have endeavored to oblicing the mained individual equality. Nikh.—The tiqus, and steady, and complete eller-grant of the laws, and the preticus not all our citizens in the enjoyment of all prolinges sind immunity guaranteed by the Constitution, are the first duties of the nation.

Teach—The dangers of a "rolld Nouth" can only be averted by a faithful performance of every promise which the nation has made to the citizen.
